

# Mr Poppleton's Class Year 4 & 5: Week 25th -29th May 2020

Here are some activities you might want to try this half term. Remember to post your pictures and videos and Seesaw. I love to see them

## Weekly Reading Tasks

Daily Phonics Lessons can be watched on the Ruth Miskin Facebook and You Tube Page.  
Additional free Resources can also be downloaded from [www.home.oxfordowl.co.uk](http://www.home.oxfordowl.co.uk)

The **MORE** that you **READ**, the more things you will **KNOW**.  
The **MORE** that you **Learn**, the more places you'll **GO**.

This week I would like you to pick your favourite books and read them in a different place or in a fun way. Try and be as creative as you can be. Why not turn a trampoline into a special reading den? Read in the car for some peace and quiet. Be as creative as you possibly be. I'd love to see some videos and pictures placed on Seesaw. There may even be some prizes for the most creative ideas.

### Reading

You can now access a range of reading books for free using our class log in on Oxford Owl.

[www.oxfordowl.co.uk/](http://www.oxfordowl.co.uk/)

Click the following icon:

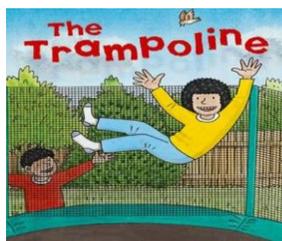

Log in with the following:

Username: Class 4 / 5

Password: Denaby 45

Why not record yourself reading and upload a video to Seesaw.

### How many different places can you read?

When reading your book see if you can find any of the following words:

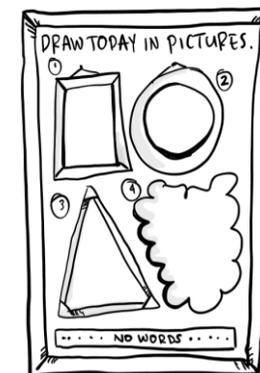

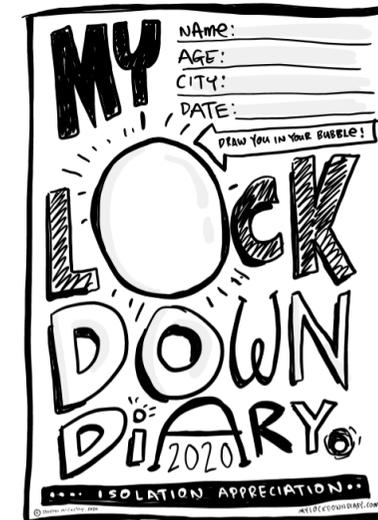

accident	centre	experience
accidentally	century	experiment
actual	certain	extreme
actually	circle	famous

How many of these words can you spell in 1 minute?

## Weekly Writing tasks

For your writing task this week I would like you to keep a diary of your week.

You could include the following:

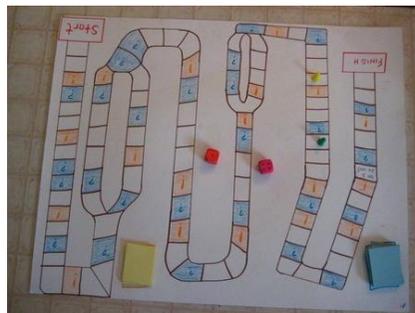

Resources can be found at

[www.cnwl.nhs.uk/application/files/4615/8624/6896/mylockdowndiary\\_a4\\_2020.pdf](http://www.cnwl.nhs.uk/application/files/4615/8624/6896/mylockdowndiary_a4_2020.pdf)

A copy will also be uploaded onto Seesaw.

## Maths task

This week for maths I would you to design and make your own maths themed board game. You can design what it looks like and the playing rules. The only thing it must have is a maths link. This could include questions to answer or puzzles to solve. You could include some number bond questions or some times tables. I would love to see videos and pictures of your playing them.

## Wider curriculum tasks

### Geography – “O I do like to be beside the Seaside”

When lockdown is over I can't wait to go on a daytrip to the Seaside. When I go the Seaside, I love to play on the beach and eat a yummy ice cream. If you could design your own ice cream what would it have in it? What would it look like? I'd love to see your creations.

### Science- Earthquakes.

Earthquakes are another natural disaster. They are powerful enough to bring down buildings. Your challenge is to design an earthquake proof building. Think about: The walls, the base and what you would make it out of and why.

### PE- Keep Moving

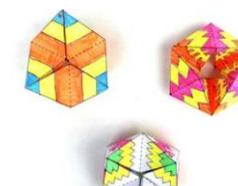

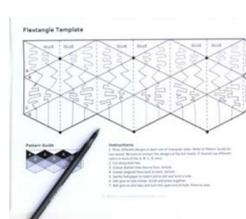

Can you create a fun new game?

- Think about the type of game: is it an invasion game (like football) or possibly striking and fielding (like cricket) or even a mixture.
- List the equipment needed and the rules on how to play.

## Express your feelings

Why not have a go at making your own fidget toy. The template and instructions can be downloaded from the below website and will also be available on Seesaw.
